The design on the cover of this month's Alumnus is similar to one of the famous Rorschach cards, invented by the renowned Swiss psychiatrist Dr. Hermann Rorschach around the early 1920's. The cards are used by trained psychologists in the evaluation of normal and disturbed personalities. Learning to use the test requires that the graduate student in psychology spend many hours under careful instruction and supervision. The new doctoral program in clinical psychology is described on page seven.

THE OHIO ALUMNUS is published monthly in October, November, December, January, March, April, May & June by the Ohio University Alumni Association. The annual subscription rate of \$4.00 includes membership in The Ohio University Alumni Association. Remittance should be made by check or money order payable to The Ohio University Alumni Association. P.O. Box 285, Athens. Entered as second class matter. October 3, 1923, at the post office at Athens, Ohio, under the Act of March 3, 1879. Printed at The Lawhead Press, Inc., Athens, Ohio.

A Parallel In Growth

Modern Hudson Health Center portrays Ohio's expanding student facilities.

DO YOU REMEMBER the makeshift quarters for the University Health Services in the basement of the Agriculture building with examining cubicles where every patient and nurse within range could hear your discussion of your health problems with the physician? Or perhaps you can remember when the "infirmary" was limited to contagious cases and was in one of several houses at the campus periphery.

Not only has the campus periphery expanded but also the health facilities and services for students at Ohio University. At the present Hudson Health Center we see patients with everything from epilepsy to athletes foot.

The first university hospital was established in 1911. It is believed to have had four beds and was limited to students with contagious disease. The present Health Center has 52 beds which include private rooms, 2, 3, and 4 bed wards with adjoining bathrooms. In 1957, during a flu epidemic improvised facilities for over 80 students were provided.

The growth of the University Health Services parallels the growth of Ohio University. The first part-time resident physician (who was hired primarily as the Director of Indoor Athletics) was employed in 1912. The first full time physician was employed in 1937. The present medical staff consists of four full time qualified licensed physicians with a fifth to be employed in July of this year and the search is still going on for an additional well qualified physician. In addition to the medical staff there is a full time University sanitarian, 15 registered nurses, registered laboratory and X-ray technicians, and ancillary help such as secretaries, cooks, and housekeepers. Six pre-med students live in special quarters at the Health Center and do janitorial work, and three female students, who also live at the

Health Center, work part time as aides. The Health Center has a well equipped physical therapy department which includes whirlpool, diathermy, ultra sound infra-red and ultra-violet. We are also equipped with electro cardiograph and basal metabolism equipment.

The present Health Center building was built in 1949 at the cost of \$500,000 and dedicated as the Hudson Health Center in 1959 in honor of Dr. E. H. Hudson, Director of Student Health at the time the present Health Center was conceived and built.

Although the primary concern of any practicing physician is clinical activities (that is, diagnosis and treatment of illnesses), we consider it also our responsibility that the college student at this rather critical period of his life, acquire appropriate concepts and habits about his physical and mental well being. We also stress the importance of preventive health measures including an active immunization department. Students are required to have tetanus and smallpox immunization prior to admission to college. Polio and influenza immunizations are offered to all students at a nominal fee as are various immunizations for foreign travel.

All entering students are given tuberculin skin tests and yearly follow up x-ray is done where indicated. Approximately 3,000 x-rays per year are taken by the x-ray department. These include chest x-rays, x-rays of bones for possible fracture or other pathology, and other diagnostic x-rays. Some x-rays which involve unusual techniques or interpretation are referred to specialists in nearby areas. Last fall, three jaw fractures were referred to Parkersburg where a specialist wired the bones and returned the patients to Student Health for follow up.

MOST OF OUR STUDENTS are healthy young people who occasionally have acute illnesses or injuries and who can be treated as ambulatory patients. The types of disorders cover the whole spectrum of disease and injury. In addition to minor upper respiratory infections, minor sprains and bruises, digestive disturbances, and psychosomatic illness, we see psychoses, pneumonia, kidney stones, gall stones, acute appendicitis, diabetes with its numerous complications (including insulin shock or diabetic acidosis), duodenal ulcer, ulcerative colitis, epilepsy, and contagious diseases such as measles, mumps, chicken pox, etc. In general our student health problems involve many of the pediatric problems and most of the adult medical problems except for those degenerative diseases which are more

DR. RUTH MATTHEWSON, associate physician in health service, has been a member of the Hudson Health Center staff since 1955. Prior to obtaining her medical degree from Western Reserve University Medical School in 1954, Dr. Matthewson was a technical assistant in zoology for six years. She received her undergraduate degree from Ohio University in 1944.

specifically found in an older age group.

We also see injuries which are concerned with the fads of young people. Last year during the "twist" craze, we reduced four dislocated knee caps. We have detected cardiac disease and have recommended further work up in medical centers. Two students have had surgical repair of congenital defects. We believe that we have added to the health and longevity of the students. Within the past month, a clinical diagnosis of multiple sclerosis was made and confirmed by one of the major medical centers in this state. Diagnosis in students can be challenging for the alert physician.

Last year we had over 35,000 out-patient visits. However, there is no limit to the amount of time that the student can stay in the Health Center Hospital section if the physician deems it necessary. Over 6300 patients were admitted to the hospital section last year. For the most part, these were for illness of very short duration. If the patient is going to be confined in our isolation ward and be away from classes for several days, parents sometime prefer to take the student home. However, it is often to the student's advantage to stay at Ohio University where he can have a friend advise him with regard to assignments in courses and thus keep up with his work.

There are also instances in which the student may not be well enough to return to full activity but may be able to go to part or all of his classes and then return to the Health Center. This has made it possible for many students who are in particularly difficult fields or those with mediocre ability to stay in school and complete their work despite illness. Thus it is often undesirable for a parent to take a mildly sick patient home as he will miss less time from class if he stays at the university. On the other hand, it is sometimes difficult for the parent whose concern for the son or daughter away from home may be greater than usual since they are not at hand to observe severity and progress for themselves. Each situation must be evaluated with concern for the student and consideration for the parents.

Our major surgery cases are referred to the local general hospital (Sheltering Arms Hospital). Through a special ear-marked fund called The Mutual Health Fund, the students' hospital and medical bills at Sheltering Arms Hospital are paid (up to a total of \$400.00) if the patient is referred by the Health Center physicians. There is also available a voluntary insurance plan which covers the students while on vacation away from the university or if the bills are in excess of the amount covered through the Mutual Health Fund, the voluntary insurance program is obtainable for students at a very low cost. Since the inauguration of this insurance program two years ago, we have had two students who were diagnosed at the Health Center with ulcerative colitis; although these two students dropped out of school, they have received from this insurance the maximum amount of \$5,000 cash on their medical and hospital bills.

Due to our present shortage of physicians we have temporarily discontinued our pre-marital counseling service

and limited our physical examination service for students who need examination for summer work, graduate school applications, etc. We hope to be able to reinstate these services when additional physicians are employed.

AT THE PRESENT TIME we have a physician who has had training in psychiatry who sees the emotionally upset students. We also cooperate with the clinical psychologists in the Psychological Services Center of the Ohio University Psychology Department. We occasionally refer students to the Athens County Guidance Center. In the past we have also had excellent cooperation from the physicians at the Athens State Hospital. There are tentative plans to set up a more extensive mental health section at the Hudson Health Center.

It is also a part of our mission to assure that the University represents a healthful environment. Ohio University is the only school in the state, and one of the few in the country, to have a full time sanitarian. The sanitarian was hired two years ago and in addition to his duties of checking dormitory and fraternity and sorority food-handling facilities, rodent and insect control, and swimming pool sanitation, he also inspects for environmental hazards. The off-campus approved housing facilities for students are checked for sanitary facilities, adequate light, ventilation, safe heating, and electrical wiring.

For each student who is involved in an accident, a form is filed with the University Sanitarian. Thus he is able to evaluate whether there are specific environmental hazards on campus which need correction. We believe this program is one more indication of the progressive planning of Ohio University indicating the approach to the over-all welfare of the students.

The philosophy of student health at Ohio University inter-relates with objectives of the University as a whole. We believe that we are helping students to remain in good health so that they can achieve their academic objectives. We try to give them some basis for remaining in good physical and mental condition after they leave the academic world and achieve their place in society. We try to help the students achieve mature attitudes toward their own emotional and physical problems and toward those of others. We emphasize the preventive medicine aspects of health through our immunization program, tuberculosis diagnosis program, rheumatic heart disease control program, and the environmental health program.

We certainly do not attempt to replace the family doctor and we cooperate whenever possible with the student's personal physician and encourage the student to do likewise.

The Alumni of Ohio University can be proud of the growth of Student Health Services as a part of a growing progressive University. We of the Health Center staff believe that the services rendered to our students can be compared with any in the state and not be found wanting. But we are not snugly satisfied to remain status quo. In the future the health services will continue to grow with the growth and needs of Ohio University.

Students and Mental Health

Young adults in an unfamiliar setting are provided psychological services.

FOR MORE THAN A DECADE the Psychology Department has been offering psychological services to Ohio University students with problems in the areas of academic and professional adjustment, and personal problems pertaining to mental hygiene or a healthy emotional life.

The first service of this sort to be provided was the University Testing and Counseling Center, organized by Dr. Gaige B. Paulsen, who is director of the service and also Dean of the University College. The other staff members of the Center consist of Mr. A. S. Bowling, the full-time Coordinator of testing, Dr. David L. Russell, Associate Professor of Psychology and part-time counselor, Mrs. Jane Woodrow, the receptionist and two graduate assistants. In a typical year about 250 undergraduate and graduate students of the University come to the Center for educational or vocational guidance.

Typically each of these students is first interviewed by Mr. Bowling, and the general area of his difficulties outlined. Following the initial interview he is administered "battery of tests by the graduate assistants, with the precise test being decided by Mr. Bowling on the basis of the interview. A week or two later another conference is held with the student in order to interpret the tests to him, and help him plan any appropriate revisions in his curriculum or in his vocational goals. Sometimes he transfers into another major department or a different College; in occasional circumstances he may reach the decision to transfer to a different university. The

latter type of transfer is rare, because students can usually find almost any curriculum they are interested in at Ohio University; occasionally they decide that they might be more comfortable in a junior college or in a trade school.

The Testing and Counseling Center takes charge of the administration of the Graduate Record Examination, the Miller's Analogy Tests, the Medical Aptitude and the National Teacher's Tests, the College Board Examinations, and the American College tests. These are specialized tests required for admission to various sorts of undergraduate and graduate programs. In addition to helping the regular college population, a considerable number of high school students are offered services each year, as are a few persons from the Ohio Bureau of Vocational Rehabilitation, and some adults from industry at large in this section of Ohio.

Another major service provided by the University Testing and Counseling Center is to assist the University College in the administration of the regularly prescribed tests which are given to all incoming students, and the interpretation of these tests to the students when they request information about how they made out on them. The Center assists in the pre-college testing program which is directed by the University College for the purpose of giving educational and vocational guidance to high school students about to become college freshmen.

The other principal branch of the Psychology Department which offers mental health services to university students, faculty and faculty families, and occasionally to children in the Athens area, is the Psychological Services Center. This organization was started about eight years ago under the direction of Dr. Maxwell S. Pullen, Associate Professor of Psychology, and full-time director. He is assisted by Dr. Paul B. Koons on a quarter-time basis, with some help from Mrs. Woodrow and a graduate assistant. More than 300 Ohio University students or faculty come to the Services Center each year for psychotherapy or counseling for personal or emotional problems. The number of visits paid to the Center by a typical "client" varies from one to 25, but the average is about four visits. The staff would like to see this number of visits by each person increased, but is prevented from seeing each person as often as would be desirable because of the limitations on time.

DR. WILLIAM U. SNYDER, professor of psychology and director of clinical training, joined the Ohio University faculty last September after 17 years on the faculty at Pennsylvania State University. The author of numerous books and articles on psychology, Dr. Snyder received his AB degree from Gettysburg College, his MA from Duke University, and his Ph.D. from Ohio State University.

Actually the Psychological Services Center is relatively small in comparison with those in many other universities of comparable size. It is generally felt that about ten per cent of a student population will require some sort of personal help during their four years of attendance at a University. Stating this figure differently, about 1000 students should typically be coming to one or the other of these two psychological facilities in each academic year. Many universities employ one clinical or counseling psychologist to work on a service basis (rather than for teaching alone) for each 1000 students enrolled. At Ohio University the ratio to enrollment is 1:4500.

Many people wonder about the types of problems which students bring to the Service Center. In some ways they are the problems of young adults everywhere, but, there are some special aspects related to their being in the university setting. Feelings of inadequacy relative to the ability to perform college work are often quite prominent, especially in young people who are the first member of their family ever to have gone beyond high school. Another frequent problem is a kind of general apathy which prevents the students from working in college up to the level of their capacity. This may result from indecisiveness about nature of the vocation or profession which they have chosen, or to the lack of the accustomed parental pressure to do their studying; if a student has not learned to study independently he may find it difficult to discipline himself in the relatively free and "unstructured" atmosphere of a university where there is no one present to insist that he get to work.

Sometimes social problems predominate; the student may find himself in a new sort of social environment from the one he is used to. Despite its being located in a small town, Ohio University draws many very sophisticated students, and the young person who comes from a small town and small high school may find the larger, rather cosmopolitan atmosphere of the University rather threatening.

Often there are marital problems, or those related to concerns about sexual adjustment. Being married and going to college at the same time is not always an easy adjustment to make, especially after the relatively carefree days of high school. If in addition the problem of supporting a wife and sometimes children is also present, marital functions may arise that would not occur in less complicated circumstances. Or a student may be in conflict regarding his own standards of sexual behavior, or those of some of the other people he may encounter in college.

Most of these problems require only a few interviews of help, and the students usually show remarkable "elasticity" and the ability to rebound quickly and proceed on their own without special help.

Occasionally the staff administers special personality or aptitude tests to students seeking help. Usually these are individually administered tests which require a high degree

of specialized professional skill. Several of these have been shown in pictures accompanying this article. The most famous are the Rorschach inkblot test and the Wechsler Adult Intelligence Scale which are measuring devices in the areas of personality and ability, respectively.

AN IMPORTANT ASPECT of the University's contribution to the mental hygiene of its students is to be found in a new doctoral program which has been inaugurated in the fields of clinical and counseling psychology. While Ohio University has had a master's program in this area for many years, it is just beginning its Ph.D. program. Although the program does not begin officially until September of this year, a number of master's students have been accepted and will continue working toward the doctors degree. Other new students have applied. It is the intention of the Department to keep the number fairly small, with not more than six or eight doctoral admissions per year, and to emphasize high quality of training.

In this program the students will receive the usual training in research that is characteristic of the Ph.D. degree. In addition they will be highly trained in the clinical skills of psychodiagnostic testing and conducting psychotherapy interviews. They have already begun such training under intensive supervision. A professor who supervises a student spend at least one hour a week with him going over his work. Usually the student is working with two such professors at a time. One will supervise his testing and the other his psychotherapy.

The student is characteristically required to make tape-recordings of his testing or his interviews, and he plays these over for the professor, who comments on them and offers suggestions and criticisms. On rare occasions, the professor also may watch the student at work, using a "one-way" window for this purpose, as shown in a picture accompanying this article. The student also has the opportunity to observe films or interviews performed by "expert" counselors, and also to discuss his own interviews with other students, and with the professors in seminars. Likewise, he has the opportunity to discuss the interviews of the other students, so that each profits from the others experiences.

Thus, in the Psychology Department of Ohio University, much is being done to contribute both to the mental health of the University's students, and also to the great national problem of an insufficient number of trained specialists in the mental hygiene professions. The report of the President's Joint Commission on Mental Health indicates that the nation faces a serious shortage in these areas, and that it is urgently necessary for universities to be preparing more psychologists, psychiatrists, and social workers as rapidly as possible, even if we are only going to keep up with the current demand for treatment facilities. Ohio University is making a real and significant effort to help fill this national need.

Carrying Our Country's Colors

Two famous Ohio athletes represent
United States in foreign contests.

TWO OHIO UNIVERSITY athletes, one an alumnus, the other a current student, are carrying colors of the United States into foreign competition this spring and summer.

Bunk Adams, '61, was a member of the U. S. Pan American Games basketball team which participated at Sao Paulo, Brazil, from April 20 to May 5. One of 12 squad members, Bunk was selected from the Armed Forces team of which he was a member.

Bunk Adams

... in Pan American Games

Harry Houska, whose feats were chronicled in the April edition of the OHIO ALUMNUS, will be one of a 21-man team which will represent the United States in the World's Wrestling championships to be held in June somewhere in Europe.

Houska, a junior from Parma, Ohio, is to report at West Point, N. Y., on May 15 for training in Olympic freestyle wrestling techniques. Participating at 191 pounds, Houska will meet many foreign competitors after the team leaves New York for Europe on May 27. They are due to return to the States early in July.

Briefly reviewing Houska's feats—he won 27 matches during the 1962-63 collegiate wrestling season before bowing in the 177-pound class of the national finals to Dean Lahr, Colorado University. In his first 23 matches, of which he won 18 by pins, Houska was uncscored upon.

For his second place finish in the nation's 177-pound division, Houska was named an All-American. His technique and skill were admired by all who watched him perform. Especially observant was Myron Roderick, coach of Oklahoma State's national championship team, who will also coach the U. S.'s world team.

Also, as a tribute to his academic ability, Houska was permitted by the College of Education to finish his semester's work early in order to participate.

Adams was a member of the Armed Forces team which subdued the major and minor college all-stars in the Pan-American Games playoffs at Kansas City, Mo.

Five of the 12 Pan-Am team members came from the winning Armed Forces aggregation.

Ironically, Bunk was a guard—and the leading rebounder—for his squad.

Ohio basketball fans of recent years will find little trouble in remembering that Bunk was a member of Ohio's only two Mid-American Conference basketball championship teams, 1959-60 and 1960-61. He captained the latter aggregation in his senior year.

Few also can forget his outstanding performances on the way to becoming Ohio's all-time career scorer with 1196 points. Adams was a key figure in perhaps the most amazing comeback an Ohio team has ever accomplished.

That was on the night of Feb. 11, 1961, and the Bobcats were playing Kent State in Grover Center. Trailing by nine points with about 1½ minutes remaining, the Bobcats, mainly on the sharpshooting of Larry Kruger, narrowed the gap to two with one second to go. A jump ball was called at Kent's free throw circle and the Kent player involved tapped the ball on the way up for an illegal tap giving Ohio the ball out-of-bounds with still one second left.

Bill Whaley took the ball, tossed high in front of the basket to Adams who leaped up and tapped it in. With the clock not starting, by rule, until it touches a player in court, the goal was good and the Bobcats went on to win by 10 points in overtime.

This was an important win on the way to the title for the Bobcats. It proved their coolness and poise under fire.

What the

Ohio University Fund

can do

THE SCHOOL OF MUSIC is a bee-hive of activity this year. In addition to a busy season of more than 100 concerts of various types, a new project was undertaken: The Young Artists Contest. The two-fold purpose of the contest (which it is hoped will become an annual affair) was to offer talented young musicians an opportunity to perform in public with the Ohio (University) Symphony Orchestra and to attract gifted students to the School of Music. This innovation to our activities was a great success in every respect.

Your contribution to the Ohio University Fund will make the continuation of this project possible. Since the four winners of the contest are awarded scholarships in music, it will be necessary to raise sufficient funds to endow four new scholarships each year for the next four years—sixteen new scholarships in all.

The scope of the Ohio University Fund is broad. In supporting the many activities of the academic community the fine arts are not overlooked. Won't you mark your next contribution "for Music Scholarships?"

on the green

Dr. Crowell

DR. GILFORD W. CROWELL has been named by President Vernon R. Alden to succeed Dr. Francis N. Hamblin as dean of the College of Education. Dr. Crowell, now associate dean of the college, will assume his new position July 1. Dr. Hamblin has announced his resignation to become dean of the School of Education at George Washington University in Washington, D. C. Dr. Crowell has been a member of the Ohio faculty

since 1951. He has been director of the Center for Education Service, director of Summer School and the University Extension Service. In 1960 he was appointed chief of party of the Ohio University contract in Western Nigeria, where he was responsible for the establishment of two major advancements in Nigerian teacher training. A graduate of Murray State College, Dr. Crowell received both his master's and doctor's degrees from the University of Missouri.

AN OHIO UNIVERSITY graduate, J. David Lundberg, '56, has been named to the administrative staff by President Alden. Lundberg, head football coach at Toledo Libbey High School, will have general administrative responsibilities in the areas of admissions, alumni, and fund raising. Lundberg, who was named senior athlete of the year in 1956, will assume the position on July 1.

A GROUP OF THE NATION'S leading physicists met on Ohio's campus to discuss recently discovered "resonance" particles encountered in high energy nuclear interactions. Ten survey papers and 20 short papers were delivered by experimenters and theoreticians from laboratories and universities at the first program of its kind dealing with the high energy resonant particles. The program was sponsored by the Department of Physics.

ANNOUNCEMENT of the establishment of a graduate program leading to the Master of Science Degree in the Department of Chemical Engineering has been made by the University's Board of Trustees. The program will begin with the fall semester, 1963. Addition of the new degree completes the Master of Science program in the College of Engineering and Technology. Other departments in the college are Electrical Engineering, Civil Engineering and Mechanical Engineering.

THE OHIO UNIVERSITY campus was the scene of a Young People's Concert performed by the Willowbrook High School of Villa Park, Ill. The orchestra and their conductor, Stanley Ackerman, were invited to Athens by Ohio's School of Music. Dr. Karl Ahrendt, director of Ohio's School of Music, was guest conductor.

TWO GUEST LECTURERS, sponsored by the College of Education and the Zoology Department, visited the Ohio campus during the month of April. Dr. Warren W. Eason, professor of Economics at Princeton, spoke on the Russian economy during his two day visit. Dr. Tien-Hsi Cheng, a member of the faculty at Pennsylvania State University, spoke on the topic "Science in Communist China."

Dr. Renkenberger

FACULTY BRIEFS: Dr. B. A. Renkenberger, advisor to students from aboard, will step down from this position July 1 to resume fulltime teaching responsibilities and to continue as chairman of the Department of Modern Languages. He has been foreign students advisor since 1954, and a member of the faculty since 1941. Paul L. Noble, dean of the College of Business Administration, presided at the annual conference of the Ohio Council on Economic Education held

in Columbus May 10. Dr. Thomas McCormick, instructor of history, has received a summer grant from the American Philosophical Society for research on the Open Door Policy of the United States in China during the 1890's. He will conduct the research in Washington, D. C. P. John Lymberopoulos, assistant professor of statistics, recently gave a critical analysis of two papers at the annual meeting of Southwestern Social Science Association in San Antonio, Tex. Dr. George Lobdell, associate professor of history, has collaborated in the publication of a junior high school American history textbook. The text, *The United States of America: A History for Young Citizens*, is being published by Silver Burdett. Bill Davidson, instructor of civil engineering, has accepted an appointment to the staff at Pennsylvania State University where he will also work toward a Ph.D. degree. Dr. Dean L. Hummel, associate professor of education, is the 1963 president-elect of the National Association for Counselor Education and Supervision.

Appreciate It

There's a whole lot of reasons why I enjoy being in the entertainment business, and one of them is the chance to do something for somebody. Like for instance, this April 19 and 20 there's a whole bunch of show folks, like myself, Tommy Leonetti, Ronnie Schell, and a whole bunch of others, and we're coming up there to Ohio University to put on two big shows for a scholarship fund tribute to my friend and personal manager, Dick Linke. See, he's a 1941 graduate of Ohio University. Now ask somebody where you can get some tickets, cause you hadn't ought to really miss it. I'd appreciate it.

Andy Griffith

Ohio University says thanks, too

VACATIONS are a rarity in the entertainment business. There coming is usually marked with a deep sigh of relief as the performer steps out from before the footlights and cameras and heads home to his wife and children.

Andy Griffith, star of the television series, "The Andy Griffith Show," is a performer with a purpose in life: to make people laugh. On April 19 and 20 Andy took time out from his vacation to do just that at Ohio University.

Andy had another purpose in coming to Athens; to establish a scholarship fund in honor of his ten years association with his personal manager, Richard O. Linke, a 1941 graduate of Ohio University.

When the curtain fell on the final performance Andy Griffith had achieved both his purposes through his visit to the Ohio campus. Proceeds from the two performances, played before nearly 4000 people, are to be used by the School of Journalism to establish an upperclass scholarship.

Ernie Marioni

Woody Woodruff

Norm Diamond

Margaret Ann Peterson

Andy

ANDY GRIFFITH has come a long way in show business since his 1953 record-hit, "What It Was Was Football." It was then that the 36-year-old North Carolina native was discovered by Dick Linke. During their ten-year association Griffith has appeared in three movies and his television show is now heading into its fourth consecutive year.

"I guess I always wanted to be in show business," he admitted. Griffith, who was graduated from the University of North Carolina, was a high school teacher for three years before embarking on the civic club circuit. Along with

his wife, Barbara, they performed throughout the state, Andy doing monologues and Barbara singing.

Andy modestly notes that although he has made numerous single records and approximately five albums, very few materialized into anything popular. "I've recorded monologues that people have sent, not back to the record store, but back to the record company."

A gentleman both on and off the stage, he stated, "I found out some years ago I'm limited in the things I can do. I only try to do things I feel I can do. From every indication of audience reaction at his two performances in

Tommy Leonetti

Ronnie Schell

Dick Linke

Memorial Auditorium, Andy did everything but bring the roof down.

Although he talks with a North Carolina drawl and loves to sing folk music to the accompaniment of a guitar, Andy insists he is not trying to promote the country-boy image. A Hollywood celebrity, he and his family make their home in Manteo, N. C. He has two children, Sam, 5, and Dixie, 3. The idea that Andy is an easy-going, corn-fed, southern gentleman type of guy is not just an image for the public. It was apparent during his three day visit to Athens that success has not spoiled Andy Griffith.

Along with Griffith, the show featured the talents of singing star Tommy Leonetti, comedian Ronnie Schell, and the Ernie Mariani Trio, featuring the singing of Margaret Ann. All of the stars except Leonetti are under contract to Dick Linke.

Schell, who calls himself "America's slowest rising young comedian, has appeared often with the Kingston Trio. Leonetti, presently playing night clubs in New York, was a star of the television show "Your Hit Parade." Margaret Ann and the Trio are presently appearing at Lake Tahoe in Las Vegas.

William D. Rohr Is Named New Ohio Athletic Director

Former Northwestern cage coach
replaces retiring Butch Grover.

"... I SAW A GREAT UNIVERSITY in the budding stages. It looked like exciting things were about to explode, academically and athletically at Ohio, and I wanted to be in on it."

These were the words of William D. Rohr as he accepted the position as athletic director at Ohio University effective June 1. Rohr is succeeding Brandon T. "Butch" Grover who has reached the retirement age of 65.

The 44-year-old Rohr, a native Ohioan, resigned his post as head coach of basketball at Northwestern University to take the Ohio job. The position was tendered Rohr by President Vernon R. Alden in a telephone conversation. After one visit to the campus and a conversation with Alden, Rohr accepted by long-distance telephone from Evanston, Ill., on Thursday, April 18.

In announcing Rohr's appointment, President Alden expressed delight in "getting such an outstanding successor" to Grover.

"Bill is one of the finest men I have met in athletics and he brings to Ohio his experience as a fine coach, as well as the drive, dedication and enthusiasm that is so important in the physical and mental development of youth," the President added.

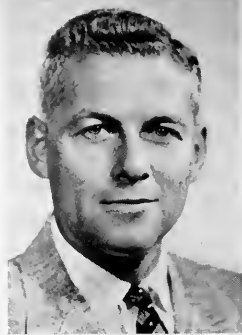

In addition to catapulting Northwestern into a Big Ten title contender in five years as coach there, Rohr is more familiarly known to Ohio fans as coach at Miami for six years before going to Northwestern. His Redskin teams won four Mid-American Conference titles and participated in three NCAA tournament playoffs.

"I am looking forward to building a well-rounded varsity athletic program at Ohio, as well as a strong intramural program, since everyone cannot compete in varsity sports," Rohr said.

A native of Massillon, Ohio, Rohr won all-state honors in high school while playing for Coach Paul Brown. His stardom continued at Ohio Wesleyan University, from where he was graduated in 1940.

After college, Rohr returned to Massillon as an assistant to Brown. He was made head basketball coach there before entering the Air Force in 1942.

Following his discharge in 1946, he became basketball coach and athletic director at Portsmouth, Ohio, High School where in five years his teams won 82 of 111 games, a record that served as a stepping stone to Miami in 1951.

William D. Rohr

B. T. "Butch" Grover

Dr. Alden emphasized that he believes in a high quality athletic program as well as a high quality academic program and "I feel certain Bill Rohr is the man to lead us to the top."

President Alden also paid tribute to the illustrious career of Grover who has given almost a half century of his life to the University. Four years as a student plus 43 as an employe certainly makes the Meigs County native a candidate for the title, "Mr. Ohio University." The three-year-old physical education center, of course, bears his name.

During his years of service under six presidents, Grover has been assistant football and baseball coach and head basketball coach as well as director of public relations and assistant to two presidents, Dr. Baker and Dr. Alden.

He was named athletic director in 1961 and, at the time, a new post, assistant athletic director was created and filled by Robert M. Wren, baseball coach.

Wren's position in the new setup has not been clarified. Whether he stays as assistant "is up to Rohr," according to Dr. Alden. The President has also emphasized the importance of leaving his coaches, "the best coaching staff at any college in the country," unencumbered by administrative duties. This is his explanation of why Wren was not elevated to the top spot.

Bobcat Roundup

By Rowland Congdon, '49

OHIO'S INDOOR-BRED spring sports squads showed their pleasure in getting outdoors following the recent flood siege which overflowed much of the athletic area.

Through the month of April the squads had compiled records of 24 wins and 11 defeats, with the track team having only participated in relays and no dual meets.

With their collective eyes on the school's third Mid-American Conference all-sports trophy win in four years, the squads moved forward in a pace equal to this task.

The Bobcats had collected a total of 28 points towards the trophy through fall and winter participation. Miami was second with 26, Bowling Green had 25½ and perennial spring powerhouse Western Michigan was fourth with 22½.

With the best chance to bring home a title from the annual spring conference meet held this year at Western Michigan, Coach Kennit Blosser's golf squad had compiled a 12-2 mark through April 27. All of the conference teams but Miami had fallen victims to the linksmen. The Redskins had not been met yet.

In addition, the golfers finished fourth in a 10-team field at the Mid-West Invitational tournament held at Indiana University. Three Indiana schools, Indiana, Purdue and Notre Dame finished ahead of the Bobcats.

However, a bigger prize, the Ohio Intercollegiate championship, was still to be contested. This was to be held at the Ohio State University course on May 6. Ohio has been the top contender to Ohio State each year and has taken one title finishing second the other times.

Pacing the golfers, as expected, is sophomore Bob Littler. Son of the Athens Country Club professional, Bob has averaged 73.8 strokes for 11 rounds of golf.

Next best scorer for the Bobcats has been senior Nick Karl, Sistersville, W. Va. He is averaging 75 strokes in 11 rounds. Others of the top six read this way:

Russ Berkoben, Troy, 76.7; Bob Santor, Youngstown, 76.7; Alex Rotar, Canton, 77.4 and Bill Harding, East Palestine, 78.1. These are undoubtedly the six who will represent Ohio at the conference meet, May 17 and 18 at Kalamazoo, Mich.

Ten out of the last 12 years Ohio has finished first in golf, with Marshall nosing the Bobcats out last year. This year, the Bobcats are once again the team to beat.

THE BASEBALL BOBCATS lost two of their first three games and then proceeded to win seven straight before faltering again to lose four of five for a 9-6 record with 11 games to go. Nevertheless, they were in contention for at least second place after losing two games to Western Michigan, the league leader.

A 15-3 drubbing by Ohio State opened the season as the Bobcats began their spring vacation trip. The next day, sophomore Lenny Stahl made his debut as a starting pitcher a successful one in his hometown as Ohio drubbed Cincinnati, 9-1. The Bearcats got revenge with a 7-5 victory before the Bobcats moved into Oxford for their first conference series of the year with Miami.

Bill Hirzel, senior righthander from Hicksville, went the entire route as Ohio won the opener, 9-6, in 11 innings. The second win was easier, 14-1, with Stahl again pitching well.

BOB LITTLER

... leads Ohio golfers

THESE FOUR MEN captured two first place trophies at the recent Texas Relays held at Austin, Tex. Members of the distance medley and two-mile relay team are, left to right, Darnell Mitchell, Bob Crooks, Bill Heller and Barry Sugden. (Messenger Photo)

A 6-1 win over Xavier followed the first home conference series with Kent State, which brought two more wins, 5-4 and 9-5.

Cincinnati came to Athens for two more and this time the Bobcats won both, 7-5 and 13-1. Then came the disaster at Western Michigan. Rained out on Friday, the Bobcats lost a doubleheader to the Broncos, 6-1 and 10-5.

Senior captain Jim McKee was setting the hitting pace. The big Mariemont first baseman, who was the place-kicker on the football team, was hitting a lusty .404 through the first 15 games. Junior shortstop Rick Bullock, McArthur, and senior centerfielder Don Ozy, Niagara Falls, N. Y., were next in line among the regulars with .309 averages.

McKee and catcher Jim French, senior from Andover, were leading in RBI's with 14, while French had the most home runs, four.

THOUGH NOT HAVING yet participated in a dual meet, Coach Stan Huntsman's trackmen were showing with their performances in relay meets that they must be contended with in the conference meet. Especially impressive in their performances were his foursome of Barry Sugden, Bob Crooks,

Bill Heller and Darnell Mitchell who teamed for first places in both the Texas and Ohio University Relays in the two-mile and distance medley events.

Their two mile relay time of 7:30.8 was fifth best time in the nation recorded through April 20, according to the official NCAA track and field service release.

The sprint medley team of Sugden, Mel Orr, Jim Baldini and Mitchell set a blistering 3:22 time in the Ohio State Relays which was third best in the nation.

The Bobcats had a dual meet with Central State and were to meet both Iowa and Ohio State at Columbus in tuneups for the conference meet.

COACHED BY NEIL WILLIAMS, a graduate assistant, the tennis team stood at an even 3-3 record with six more matches to go before participating in the conference tournament.

Playing in the number one spot for the netters was Nigerian Rudy Roberts.

The Bobcats lost to Ohio State, Eastern Kentucky and Kent State and defeated Marshall, Pittsburgh and Xavier in the first half of the season. Yet to be tested were Kenyon, a return match with Marshall, Central State, Miami, Bowling Green and Toledo.

Green and White Club Honors 13 Sportsmen At University Center

Thirteen sports personalities from around Ohio were honored at the Third Annual Sports Awards Dinner sponsored by the Green and White Club of Athens and held in Baker Center, April 23. Main speaker at the affair was Dick Kazmaier, former All-American football player at Princeton, Heisman and Maxwell Trophy winner, and currently vice-president of Voit Rubber Company.

The award recipients were: Bob Addis, baseball coach at Euclid High School; Bron Bacevich, football coach at Cincinnati Roger Bacon; Don Eskey, Athens High football coach; Dr. Frank Gullum, former Ohio University affair and retired professor of chemistry; Bob Hart, coach of the state champion Columbus East basketball team, Class AA; Stan Huntsman, head coach of track and cross country at Ohio University.

Angus King, director of athletics for all 97 high schools in the Cincinnati area; Harry Lackey, former Athens High basketball coach and currently principal of Putnam School; Dr. Raymond H. Lupre, Ohio alumnus and physician in Youngstown; Jonesy Sams, Athens resident and "No. 1 Ohio University sports fan"; Jack Van Reeth, coach of Dresden's Class A state high school basketball champions; George Vlerebome, football coach at Zanesville High School and Bill Watts, basketball coach at Marietta High School.

Alumni Scope

1915

LOUIS FOLEY had an article entitled "De Verbis Fraternitatis" published in the January, 1963 issue of *Banta's Greek Exchange*, an interfraternity journal.

1926

DR. LEONARD VOORHEES recently retired from his position as director of pupil personnel in the Euclid, (O.) School System. His retirement ends an era of 26 years in the personnel department. Listed in "Who's Who" in American Education," Dr. Voorhees is a past president of both the Tri-State Conference on pupil personnel and the Council for Exceptional Children. He was the organizer and first president of Greater Cleveland Directors of Pupil Personnel. A resident of Euclid most of his life, Dr. Voorhees now lives in Chardon with his wife, Esther.

1927

FRANK MORGAN has been appointed acting chairman of physics and astronomy at Denison University, Granville, O., where he joined the faculty in 1961 on his retirement as director of the Gulf Research and Development Co., Pittsburgh, Pa. His term is for one year, starting in June, while the chairman is on sabbatical leave.

1928

F. M. RHOTEN represented Ohio University at the Centennial Convocation of Boston College April 20. Earlier this year, Mr. Rhoten was a representative for Ohio at the Inauguration of Worcester Polytechnic Institute's President Harry P. Storke.

DOROTHY LAWRY VORHEES is temporarily on the staff of International School, Geneva, Switzerland, teaching arts and crafts in the primary school. Her husband is with Mobil International Oil Co. in Geneva.

1932

HUGH H. DAVIS of Syracuse, N.Y., represented Ohio University at the inauguration of Colgate University's tenth president last April 19.

ALBERT L. GREGORY is an electrical engineer with the Westinghouse Electric Corp. He and his wife, Glenna, make their home in Williamsville, N. Y.

DR. PAUL F. MUSE, professor of business and chairman of the Business Department at Indiana State College, has been named president-elect for the 1963-64 year of the National Business Education Association.

1933

BESSIE F. GOETTING is teaching the fifth grade at Fort McKinley School in Dayton, O.

PAUL MORITZ, an attorney in Niles, O., has been named as Niles Municipal Judge by Gov. James Rhodes to fill an unexpired term. He and his wife, Mary, have one daughter, Mary Susan.

1934

FREDERICK W. ADRIAN is a professor of history at the University of Omaha.

CARL BAEHR was recently appointed assistant secretary and treasurer of the McNally-Pittsburg Manufacturing Co. in Wellston, O. Mr. and Mrs. Baehr reside in Jackson with two of their daughters. One daughter is a fifth grade teacher in Middletown.

1935

CARL M. BEERY is executive vice president of the Marine Midland Trust Co. of Southern New York. He and his wife, the former JANE DONALDSON, '35, are making their home in Poughkeepsie.

1936

CARL C. PENROD recently resigned as principal of Marion and Maxville elementary schools in Logan, O., to become an examiner with the Bureau of Inspection and Supervision of Public Offices under the Ohio State Auditor. He and his wife, Lorene, have one boy, Ed.

1937

EVELETH ATKINSON HARSHMAN of Houston, Tex., represented Ohio University at the inauguration of Kenneth Sanborn Pitzer as the third president of Rice University, in October.

1938

DR. JOHN MEISTER is presently serving as pastor of the First Presbyterian Church in Fort Wayne, Ind. He has been responsible for several publications including William Law's "Serious Call to a Devout and Holy Life."

1939

ARTHUR J. DELUCA has been promoted to colonel in the U.S. Army. Col. DeLuca is professor of military science and commander of the ROTC detachment at the University of Toledo. He resides with his wife, Eileen, and three children, Kelly, 18; Jimmy, 15 and Lelia Ann, 3, in Toledo, O.

1941 Ohio Graduate Receives Army Promotion

Brigadier General JOHN L. BOROS, '41, Commanding General, 425th Transportation Command (Motor), United States Army Reserve, recently received notification at Headquarters, Fifth U.S. Army, of his promotion from Colonel to the one star rank. He is married to the former Mae B. Chapman, '40.

Joseph Sparks Is Elected Teachers Association President

JOSEPH L. SPARKS, '48, M. Ed. '53, has recently been elected president of the Modesto, California, Teachers Association for the 1963-64 school year. Sparks is a mathematics and social studies teacher at Roosevelt Junior High School in Modesto.

1940

JOHN H. BEELER is an associate professor at The Woman's College of the University of North Carolina.

1941

DONALD F. POTTER is representing Ohio University at the inauguration of W. Allen Wallis as President of the University of Rochester on May 17.

JOHN LEWIS BOROS, manager of products supply in the supply and transportation department of Standard Oil Co. in Cleveland, O., has been appointed to the rank of brigadier general in the U.S. Army Reserve. He is the commander of the 425th Transportation Command in Chicago.

1942

DR. ORMSBY L. HARRY, dean of students at Shepherd College, W. Va., is also serving as instructor in the Shepardstown extension center.

1948

MAJOR JOHN M. NOLAN is now serving with the MAAG, Vietnam, where he is a G-3 advisor to the 23rd Vietnamese Airborne Division. His wife, the former ROSEMARY SNACKENBERGER, '48, and their three sons are living in Fayetteville, N.C. Mrs. Nolan is teaching the first grade in the Fort Bragg schools.

JULIAN MCQUISTON, who received his Ph.D. from Columbia in 1954, is assistant professor at Southern Methodist University.

KENNETH W. COTTON is assistant to the acquisitions librarian of the library at the Cortland division of the State University of New York.

CHARLES LONG of Amelia, O., has been selected principal of the Amelia junior high school. He and his wife, Twylia, have four children ranging in ages from three to 11.

1949

PAUL C. HENLEIN, assistant professor at East Texas State College, previously taught at Dana College and East Tennessee.

CHARLES R. LEACH, a Major in the U.S. Army, stationed at Fort Sill, Okla., is an instructor in Russian language in his off-duty hours at Cameron Agriculture College.

EUGENE NUTTER is an assistant professor at Southeast Missouri State College. Dr. Nutter, who received his master's from Ohio in 1949, got his doctorate from the University of Iowa.

FRANK N. ELLIOTT, associate dean of the School of General Studies at Columbia University, was previously curator of history and assistant professor at Michigan State University.

1950

CARL G. JONES, JR. has been promoted to assistant superintendent of Centrifugal Manufacturing with specific duties of establishing and operating the Fabricating Plant. He and his wife have three children and live in Mount Vernon, O.

ROBERT W. BYERS is the McArthur, O., division manager of the Columbus and Southern Ohio Electric Co., and is the assistant manager of the Jackson division. He and his wife, Jeannine, have two children, Robin, 11 and Jennifer, 7.

WILLIAM P. LANE recently joined the Marietta, O., Concrete Division of Martin Marietta Corp. as project manager. He is married and has three sons, 13, 11 and 3.

WILLIAM M. STUBBS is a partner with Richard Dittmar in an architectural firm in Zanesville, O. He and his wife, Donna, have two sons, Bradley and Jeffrey.

EDWARD G. RUOFF recently joined the Agency for International Development to work in Saigon, Viet Nam.

JOHN ROODHUYZEN, principal of Goldwood School, Rocky River, O., had an article appear in the January issue of *The Instructor Magazine* entitled "Parents' Use of the School Library."

1951

EMIL J. VASCO recently transferred to the Minute-Man Systems Management Division of North American Aviations Autonetics Division. He is currently assigned to the Project Management Staff for Internal Guidance as a senior project staff engineer responsible for guidance alignment equipment.

WILLIAM SLANY is a senior historian in the Historical Office of the State Department in Washington, D.C.

MARK J. GAMBLE, *Inland Rivers* editor for the Steamship Historical Association, is chairman of the Board of Governors of the Sons and Daughters of the Pioneer Rivermen. He has also been contributing a weekly news column to *Waterways Journal* since 1918.

THOMAS HARTZELL is teaching at St. JOSEPH's College and is a doctoral candidate at the University of Pennsylvania.

ROBERT R. DAVENPORT is legislative assistant to U.S. Senator John J. Williams.

ROY A. BROWN is an engineer at Western Electric in Des Plaines, Ill.

ELEANOR DAWSON, a registered nurse at the Veteran's Hospital in Chillicothe, O., for 32 years, has been appointed surveyor of the Ohio Nursing Home Accreditation Board.

RICHARD S. WARREN has been named project purchasing agent for construction of Diamond Alkali Company's new caustic-chlorine plant at Mobile, Ala.

CHARLIE TRUMAN is the senior engineer in the Research Laboratory of the Goodyear Atomic Corporation in Akron, O. He and his wife, Evon, have two daughters, Sue and Peg.

1952

PHILIP R. WILSON has been promoted from instructor to assistant professor of physics at Wheaton College, Norton, Mass., effective in September, 1963. Mr. Wilson, a member of the American Chemical Society and American Physical Society, is the author of several articles that have appeared in professional journals.

HARRY J. BIRCH and his wife, Alice, reside in Lyndhurst, O., where he is a mechanical engineer for the Euclid Division of the General Motors Corp.

CAPT. RICHARD L. ANDERSON is currently with the 3500 pilot training squad stationed at Reese Air Force Base, Lubbock, Tex. His wife is the former LOIS ANN CAMPBELL, '53.

WALTER J. GREENE lives in Brecksville, O., and is an art director for the Packer Corp.

PAUL WINEMILLER, his wife, Katherine, and their two children, Steve and Jimmy, are still in Japan where he is engaged in missionary work.

EDGAR P. WILK is presently employed by the Engineer Division of the Berlin (Germany) Brigade as a civil engineer.

ROBERT THIVISON has opened a new accounting and tax practice in Parma Heights, O. He and his wife, Dorothy, have one child, Lori, 4.

JOSEPH A. DeCosmo has been appointed vice president of the Mansfield, O. advertising firm of Chapel & Associates, Inc.

JOSEPH T. HATFIELD, associate professor at Concord College, Athens, W. Va., was voted the "outstanding professor" in 1962. This was the first such award made at Concord. Dr. Hatfield held a Fulbright grant to Taiwan in the summer of 1962.

MARILYN J. NASS is assistant professor of women's physical education at North Dakota State University, Fargo, N. D.

Alumnus Presents Speech Before Supervisors Conference

DR. HENRY T. FILLMER, '54, recently addressed the Spring Conference of the Ohio Association of County Supervisors in Columbus, O. Dr. Fillmer, assistant professor of education at Hiram College, Hiram, O., spoke on "Programmed Instruction in Instructional Processes," an area in which he has done extensive research.

CAPT. JOSEPH L. VAN CAMP was recently awarded the First Oak Leaf Cluster to the Army Commendation Medal for work in standardization of Army supply officer education programs. He and his family have been transferred from Fort Lee, Va., to the U. S. Army School, Europe.

G. R. HORTIN, head of the industrial arts department at Urbana, O., High School, was recently presented an award for outstanding leadership and contributions in his profession. The award was one of three laureate citations given by Epsilon Phi, an international industrial arts education honorary fraternity. Mr. Hortin is the president of the Urbana School Association and vice president of the Ohio Industrial Arts Association.

1953

CAPT. WILLARD L. PORTEUS is stationed with the first Brigade at Ft. Ord, Calif. His wife, Shirley, and their two children are with him in California.

CAPT. NATHANIEL C. LEE, JR., recently graduated from the U. S. Air Force Missile Training Center at Sheppard Air Force Base, Tex., as an outstanding member of his class. Capt. Lee, his wife and their four daughters are now stationed at Vandenberg Air Force Base, Calif., where he is assigned to a missile launch crew.

1954

RICHARD R. DUNCAN received his doctor of philosophy degree from The Ohio State University in March of this year.

1955

JIM EWERS, who earned his master's degree from Ohio University, is the new assistant football coach at Akron University. He and his wife, Ruth, have two children, Kim and Kathy.

1956

RAY O. MYERS is the city engineer of Westlake, O.

LARRY MORRISON recently accepted a head coaching position in basketball at Bellevue High School in the Northern Ohio league. He and his wife, the former SABRA JEAN DUNLAP, '57, have one son, Todd.

CAPT. HENRY H. ROENICK, JR., is currently serving with the 25th Infantry Division in Hawaii as chief of the Adult Outpatient Clinic and Dermatology Clinic at Schofield Barracks Dispensary. In June of this year he will be discharged and he and his wife, the former, LYNN BEDFORD YURICK, '56, and their three sons, Randall, 6; Ronald, 4 and Scott, 2, will return to Cleveland, O., where he will be starting a fellowship in dermatology at the Cleveland Clinic.

1957

ROSS PAULSON is assistant professor at Augustana College, Rock Island, Ill.

RICHARD E. GREEN, a doctoral candidate at Columbia University in the history of the Middle East, has received several grants for language study in the U. S. and Turkey. His wife, the former MARY LOU WICHTERMAN, '59, is also a candidate for the Ph.D. degree.

CHARLES H. ALEXANDER and Mrs. Alexander, the former, BARBARA E. WILLISON, '57, live in Edwardsville, Ill., where Mr. Alexander is assistant secretary at Florists' Mutual Insurance Co.

JAMES D. EVERETT recently was promoted to general foreman of the roller grinding department of the Timken Roller Bearing Co. in Canton, O.

1958

STEPHEN C. WITTMER is a certified public accountant in Miami, Fla.

MABEL SULLIVAN is teaching the fourth grade at Newman School in Canal Fulton, O. She is in her 24th year of teaching, having begun her career in a one-room school that housed grades one through eight. Her husband, Chester, is the superintendent of road construction for H. Miller and Sons. They have four children and six grandchildren.

F. PHILLIP KRAMER, who is currently employed by the Northeast Ohio Council of the Boy Scouts of America as a district Scout Field executive, recently had a one man art show at the Ashtabula, O. Fine Arts Center. Mr. Kramer and his wife, Grace, have three children, Kathleen Ann, Lynn Marie and Christopher Phillip.

1959

ABBAS AMIR is a structural engineer with Babcock & Wilcox Co., Barberton, O.

WILLIAM COSTAS is an engineer with Rocketdyne, a division of North American Aviation, Inc.

1ST LT. DAVID F. BELLAN is now attending the University of Pittsburgh for an undergraduate degree in civil engineering under the Air Force Institute of Technology Program. His wife is the former KAREN LEE THOMPSON, '60.

RONALD B. LANKFORD, assistant treasurer employed by the William Feather Co., in Cleveland, O., recently passed the examination to become a certified public accountant. Mr. Lankford, who is currently pursuing an MBA degree from the night school division of Western Reserve University, resides with his wife, Jean, and their two daughters in Rocky River.

RAYMOND CRUMBLEY is a chief staff writer for the Daily Times in New Philadelphia, O. His duties include the courthouse beat and general reporting of municipal, educational and industrial events.

1960

LOIS DeVoe is a second grade teacher at Tremont School in Upper Arlington, O.

GEORGE H. HAUDENSCHILD is the principal at Antioch School in Antioch, Ohio.

TERRY EISENBERG, who lives with his wife, Sandra, in Silver Spring, Md., recently received the NASA annual fellowship award. The research grant, which carries a stipend, will enable him to continue his work in the department of industrial psychology at the University of Maryland, where he is studying for his Ph.D. Mr. Eisenberg received his master's degree from the University of Toledo.

BRUCE T. YODER is working for Beckman, Mueller & Associates, planning consultants, doing work in city planning, urban renewal, site planning and other related fields in Pittsburgh, Pa.

JAMES R. LEE has been commissioned a second lieutenant in the National Guard. Lt. Lee, an industrial engineer with the Ohio Fuel Gas Co., resides in Cambridge, O., with his wife, Nancy.

Wesley Foundation Plans Alumni Picnic

Alumni of the Ohio University Wesley Foundation will be reuniting for a picnic at 4 p.m. at the Lancaster Campgrounds in Lancaster, O., June 16.

Each family should bring a covered dish and their own table service. Refreshments will be furnished. Wesley alumni from all over the state are invited to attend. Recreation activities begin at 2 p.m.

For further information contact Ralph E. Gordon, Jr., '58, 571 W. Cook Rd., Mansfield, O.

1956 Alumnus Is Appointed Wage and Salary Supervisor

DEAN PRATT, '56, has recently been appointed supervisor of wage and salary for the Atomic Energy Division of The Babcock & Wilcox Company, Lynchburg, Va. Pratt, who is currently working toward an M.B.A. degree from Kent State University, is married to the former Barbara Ann Metzger. They are the parents of two daughters.

RICK JANTZ has joined the Fred H. Jantz & Sons Co., in Cleveland, O.

RICHARD L. PAYNE has been awarded an internship at St. Luke's Hospital in St. Louis, Mo. Mr. Payne will receive his M.D. degree from Washington University School of Medicine in June.

HELEN E. KLINE is a fifth grade teacher at Cedar Heights School in Lancaster, O.

MICHAEL J. SANS is teaching eighth grade English and mathematics in Tiltonsville, O.

1961

DELBERT PEARL DAVIS is the principal of Enterprise and West Logan Elementary Schools in Logan, O.

JOAN DOLL is teaching the third grade at Corpus Christi School in Manhattan, N. Y.

MARZ J. GARCIA received his master of arts degree from The Ohio State University in March of this year.

RICHARD M. POLINSKY was commissioned an ensign in the Navy upon completing the Aviation Officer Candidate course.

ENSEIGN HAROLD S. LINDQUIST, JR., who is presently serving aboard the Attack Aircraft Carrier USS TICONDEROGA, has recently been ordered to report for duty at Naval Section, Military Assistance Advisory Group in Saigon, Viet Nam.

DORIS JEWETT FLYNN is teaching the sixth grade at Monroe School in Zanesville, O.

ROBERT E. MAVER is a physical education instructor in the Cleveland (O.) public school system.

GERALD E. KAPPES is living in Findlay, O., where he is an accountant for the Marathon Oil Co.

PAUL R. ROCK is currently stationed with the U. S. Navy in Saudi Arabia.

GAYLE D. PRATT is teaching the sixth grade in the Berea (O.) school system.

1962

MARION L. ACKERMAN recently left from Salem, O., for French Equatorial Africa where he will work with 34 other Peace Corp Volunteers in constructing 40 schools in Gabon.

2D LT. JAMES E. LEWIS has been reassigned to Robins Air Force Base, Ga., following his graduation from the United States Air Force course for communications officers at Keesler Air Force Base, Miss.

ARMY 2D LT. ROGER N. WILLIAMS recently completed an eight-week field artillery officer orientation course at The Artillery and Missile Center, Fort Sill, Okla. His wife, Susan, makes her home in Chillicothe, Ohio.

MARTA JO WADE is a research assistant for Parke, Davis and Company in Detroit, Mich.

JUDITH SOKIRAN WILSON is living in Tokyo, Japan, with her husband David. He is stationed there with the Air Force.

C. BRENT DeVORE is the new public information director of the Stark County Tuberculosis and Health Association. He has charge of the health agency's health education and information services in Stark County.

CHERRY S. LUCAS is an English teacher at The Plains High School in The Plains, Ohio.

ROGER L. HATFIELD recently enlisted in the Army for two years.

ROGER E. AILES recently was promoted from associate director of the Mike Douglas Show to producer-director of KYW-TV in Cleveland, O. In this capacity he will be

working in the public affairs department of the station. His duties will include producing the program "Dimensions Three" for KYW-TV.

LT. ALLEN TIEDMAN is training at Chanute Air Force Base, Ill., for the "Minute Man Missile Programs." He will be in the Launch Control Office stationed in South Dakota.

JON BLACK is employed by the American Broadcasting Co. in New York City. He is working as a studio engineer.

1963

RICHARD ASHTON is working with the Polaris Missile test work at the Newport News, Va., Shipbuilding and Drydock Co.

BONNIE JAYNE CAMPBELL is teaching at the Dana Ave. Elementary School in Columbus, O.

TED EMBREE is stationed with the Navy at their Officer Candidate School in Newport, R. I.

NANCY KAY JULTZ is a teacher of junior high school home economics in Birmingham, Mich.

LARRY O. CURTIS recently joined the Jackson Laboratory in Wilmington, Del., as a research and development engineer.

ROBERT K. MCGLOTHLIN is presently employed in the instrumental music program of the Mason County school system. He and his wife, the former NORMA BROWN, have one son.

CLARICE ALTA OBERHOLZER is a typing and office procedure teacher in Amelia, O.

JANE McDONALD is a speech therapist in the Warrensville (O.) school system.

ANNE DAY is a girls' worker at Friendly House in Mansfield, O.

JOHN C. VUGELICH has accepted a position as an industrial engineer with the Olin Mathieson Corp. at its Hannibal, O., plant.

ROGER DRAKE is working in the treasurer's office of the Ohio Fuel Gas Co., in Columbus, O.

Lt. Barber Is Assigned To Ohio Air Force Base

RUSSELL E. BARBER, '61, a second lieutenant in the United States Air Force, has recently been assigned to Wright-Patterson AFB, O., where he will serve as a personnel officer. Lt. Barber, a member of Phi Kappa Tau social fraternity, also holds an M.S. degree in education from Alfred University, New York.

ROTC Graduate Is Assigned To Nearby Wilmington AFB

A 1963 DISTINGUISHED military graduate of Ohio University has been assigned to the 5th Missile Battalion, 56th Artillery, Wilmington, O.

The assignment is typical of many the Army Department makes each year, but for VANCE RANNELLS it means being only 60 miles from his home in Vinton County, O.

"I suppose I'm a pretty lucky guy," he said. Rannells, who was working for the Shell Oil Co. in Indianapolis, admitted he didn't have a chance to read the orders thoroughly and paid little attention to the Wilmington assignment.

Rannells, who is presently undergoing nine weeks training at the Air Defense School, Ft. Bliss, Tex., carried a near 4 pt. average for his four years of Army ROTC classes. Commissioned a second lieutenant at the February commencement exercises, he received his degree in civil engineering.

Valedictorian of his class at McArthur High School, Rannells was a member of Tau Beta Pi, Scabbard and Blade and Pershing Rifles while a student at Ohio.

Marriages

Mary Angela Rotolo to BYRON SCHUMAKER, '57, on February 23 in Columbus, O. They are now at home in East Walnut Hills, O., where Mr. Schumaker is a photographer with The Cincinnati Post and Times-Star.

Susan Bolon to ROBERT J. MOTIL, '61, on February 9, in Byesville, O. The couple is now at home in Cambridge, O.

Mary Virginia Henry to MARK GOODMAN MILLER, '55, on January 19 in California. Both Mr. and Mrs. Miller are employed at the California Bureau of Employment in Pasadena.

PENELOPE LEE PRINTZ, '62, to Herschel Todd Jennings on February 23 in Columbus, O. They are now making their home in Columbus where Mr. Jennings is employed by the Ohio State School of Aviation and Mrs. Jennings is teaching school.

Deaths

CARRIE RICKETTS COOK, '13, died March 12 in Frostburg, Md., after an extended illness. A native of Lancaster, O., Mrs. Cook had been a member of the English faculty at State Teachers College, Frostburg, Md., since 1937. She received her Master's degree in 1920 from Columbia University. She was also a former teacher and principal at Mediana, N.N. Mrs. Cook also spent the summers of 1930 and 1933 traveling throughout Europe. Services were held in Frostburg with burial in Forest Rose Cemetery, Lancaster. Her husband, John, preceded her in death.

The Alumni Office has received word of the death of BERNICE TEBAY HARPOLD, '19. She made her home in Youngstown, O. She is survived by her husband, A. E.

GRIFFITH L. EVANS, '23, died in January of this year in the Tucson Medical Center, Tucson, Ariz., following an illness of several years. A former resident of Athens, he was employed at the Beckley Store in Athens for 18 years before moving to Arizona. He was a member of Phi Delta Theta social fraternity and the First Presbyterian Church in Athens. He is survived by two sons, a sister, a brother, and three grandchildren.

BONNIE A. DEEMER, '26, died May 28, 1962, of a heart ailment. Miss Deemer, who made her home in Lima, O., was a Spanish-English instructor in the Spencerville, O., school system for 34 years. She was a member of the Trinity Methodist Church, Trinity Chapter No. 16, Order of the Eastern Star, American Association of University Women, Tau Lambda Phi Sorority, and the Spencerville Education Association. She is survived by a sister, Letha Deemer, also of Lima.

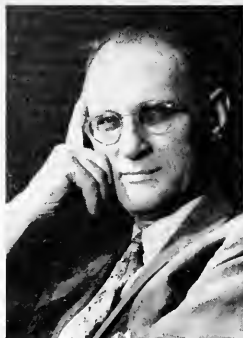

KENNETH PAUL SHAFER, '26, died in January in Mansfield, O. His last known employment was as city engineer for Crestline, Bucyrus, Galion and New Washington in 1953. He is survived by his wife, Mary, and three sons.

The Alumni Office has received word of the death of HELEN C. WOLFE, '26. A teacher at William Howard Taft School, Cincinnati, O., she was a member of the teaching profession for more than 30 years.

HUBERT T. HUDDLE, '27, died March 15 at Lancaster-Fairfield County Hospital following several month's illness. A prominent Lancaster businessman, Huddle was president of Huddle's Inc. A native of Lancaster, he was a former president of the Lancaster Booster Club, and director or officer of many civic, fraternal, church and social organizations. Huddle was a member of Lancaster Country Club, First Methodist Church, Elks, Tarhe Shrine, all Masonic bodies, and the Lancaster Area Chamber of Commerce. He is survived by his wife, Dorothy, and two sons, both of Lancaster.

RUTH PEMBERTON YOUNG, '38, died February 13 at Good Samaritan Hospital, Zanesville, O., following a short illness. She was a teacher at the Roseville, O., Elementary School. A native of Roseville, she was a member of St. Paul's Methodist Church and past matron of the Martha Washington Chapter, Order of the Eastern Star. She is survived by her husband, Robert, and two daughters.

JEAN TEMPLAR, '50, was killed early in March in an auto accident near Abadan, Iran. At the time of the accident, Miss

Dr. Harry E. Benz

Dr. Harry E. Benz, former dean of Ohio University's College of Education and a member of the faculty since 1927, died April 14 in University Hospital, Columbus, after an illness of two weeks. Death was attributed to a heart attack. He was 63 years old.

Dr. Benz joined the Ohio University faculty in 1927 as assistant professor of mathematics. In 1936 he was named professor of education, a position he served until his death, with the exception of 1946-47 when he served as a Fellow in human relations at Harvard University.

In addition, Dr. Benz served as Acting Dean of the College of Education (1949-50) and Director of the Summer Session (1951-54.) For one year, 1953, he carried out the duties of all three positions. Dr. Benz was appointed Dean of the College of Education in 1954, but asked to be relieved of the deanship in 1955 in order to return to full-time teaching duties.

Prior to his death Dr. Benz was chairman of the committee to study alternate plans for changes in Ohio University's academic calendar. (Reported in the October *Alumnus*.) He also was a co-author of several textbooks and contributed many articles to various professional magazines and journals.

Templar, a school teacher for the Standard Oil Co. of New Jersey in Iran since 1960, was reported en route to Greece with three other teachers for their spring vacation. Following graduation from Ohio she taught three years in Elyria before going to Germany to teach in an armed forces school. She later rejoined the faculty at Elyria, but left after three years to teach at a school on the Island of Aruba in the West Indies, near Trinidad. She is survived by her parents, Mr. and Mrs. L. Kent Templar, of Greenwich, O.

ISABELLE CULLEN NAGLE, '54, died February 22, 1962, in Portsmouth, O. She was an elementary school teacher at Massie School, Portsmouth. She is survived by her husband, Don, and a son.

CAPT. WILLIAM F. TESMER, '56, was killed March 20 when his F106 fighter jet crashed in a field near Kennewick, Wash., while on a training mission from Geiger Air Force Base. Officials said Tesmer's ejection gear apparently failed to work. A member of Sigma Chi and Arnold Air Society while a student at Ohio, he is survived by his wife, the former EVELYN STAUFFER, '56, and two small children.

KENNETH L. NAGLE, '57, was killed March 9, 1962, in an automobile accident in Richmond, Ind. Nagle was principal of Greens Fork, Ind., school at the time of his death. Prior to receiving his Master's degree from Ohio, he was graduated from Earlham College, Richmond, Ind., in 1950. He is survived by his wife, Hope, two sons, and a daughter.

WILLIAM H. FLETCHER, '07, died April 12 in Tucson, Ariz., at the age of 75. He was retired first vice-president of the Federal Reserve Bank. Fletcher, a native of Athens, became assistant national bank examiner three years after graduation. Eight years later he joined the Federal Reserve Bank as manager of the member books department. Following service in World War I he was appointed manager of the bank's examination department and in 1920 was appointed by the Secretary of War to examine the Philippine National Bank in Manila. He was elected to the first vice-presidency in 1945 and retired from that post in 1953. He is survived by his wife, Katherine.

J-Prom Dance May 18

Count Basie will highlight the J-Prom festivities May 18, when he will play at both the pre-prom concert and dance.

Other events of the weekend will be the skits, presented by teams of two housing units, and the talent pageant for the finalists. Skits will be performed May 16 and 17 at various places on the campus. The pageant is to be held in Memorial Auditorium, May 17 at 2 p.m.

Tickets for the dance, to be held in Grover Center, will be \$3.50 a couple and can be purchased at the door.

RETURN THIS FORM TO THE ALUMNI OFFICE, P. O. BOX 285, ATHENS, OHIO

The information you provide on this questionnaire will become your permanent Alumni Office record. It will be used by *The Ohio Alumnus* magazine when needed, in the publication of an alumni directory, and to assure prompt and accurate delivery of materials originating at the university for distribution to alumni.

A UNIQUE CHAPTER program was held this month in Akron, Ohio, where President Vernon R. Alden was the featured speaker. It was called "President Alden's Round Table," and following brief opening remarks by Dr. Alden the remainder of the program consisted of questions from alumni and their guests.

Forty minutes later, enthusiastic graduates applauded the president's answers to queries on fee increases, floods,

athletics, graduate programs, student recruitment, private versus state support, economic development of southern Ohio, plans to attract research centers and overseas projects.

Moderator was D. Ben James. Presiding was E. C. (Pete) Shingleton, retiring president. Announced as next year's officers were Richard Swartzel, president; Lil Greer, vice president, and Frances Swartzel, secretary.

Make your reservations now by completing the request form on the opposite page. Please indicate which of the special reunion groups you will be joining.

THE AKRON MEETING followed a late April weekend on the West Coast for the Aldens. They were honored guests of the Southern California Chapter at the Santa Ynez Inn, Santa Monica. One hundred and thirty-five alumni were present for the dinner dance. Alice E. Wright, the chapter's secretary, succeeded Dr. Gerald T. Sprague as president.

In Oakland, the Northern California Chapter met at The Sea Wolf, heard Dr. Alden and re-elected Randall Greig to the club presidency. Former chapter president William Keplinger, of San Francisco, was host to the Aldens and other alumni guests at a luncheon.

Recent meetings were held by four Ohio chapters and officers were elected by three.

Dr. Roy Fairfield of the government faculty was the speaker at Dayton. He discussed and showed slides of Ohio University's Peace Corps program which he directed last summer.

At Steubenville, Dean of Students William R. Butler was the guest of honor and Mrs. Andrew Frasure was re-elected for a second term as president.

Mount Vernon (Knox County) alumni named James Cullers as their president. Supporting officers are Marvin Ulmer, vice president, and Walter Callahan, secretary-treasurer. Vice president of academic affairs, Thomas Smith was the featured speaker.

The Franklin County (Columbus) Chapter reorganized this spring and elected Joseph Marsalka as president. Columbus area alumnae are planning to establish a women's club in June.

GENERAL INFORMATION

Ohio University's first Alumni College is the result of numerous requests from alumni for a program of continued education.

Alumni, wives and husbands, are invited to return to classes on The College Green during the week of July 14-20. Those who enroll will be housed in Voigt Hall. The Alumni College week will be one of study, recreation and relaxation. There will be free time to renew ties with former faculty members and other alumni, and to inspect the growth that has occurred in the past 15 years.

ACADEMIC PROGRAMS

Classes will be held Monday through Friday, 9 a. m.-11:30 a. m., in John Calhoun Baker Center. Daily lectures will cover Contemporary Literature (an evaluation of the cultural wealth available in the library and on the bookstand), and A Study of Contemporary Art Forms (an emphasis on understanding modern art forms by lectures, illustrations and group discussion). Three evening discussion periods will cover Insights to Personal Finance, Examining Today's Communication Media and Interior Decorating and the Home.

All courses will be keyed to modern living and the modern family, and will be taught by Ohio University faculty members.

RECREATION

Alumni College participants will be able to join daily classes in golf and bowling instruction. The university golf course and bowling lanes will also be open to those of advanced skills. Swimming parties will be held daily in the Natatorium.

The week's program will include a picnic supper, tour of a nearby glass plant (optional) and a theater party.

THE COST

The registration charge will be \$20 per person. Room and board for the week will be \$25 per person. Total cost of the Alumni College for each individual is \$45. All meals, except for the picnic, will be served in Baker Center.

I (we) desire living accommodations in Voigt Hall.

I (we) will not need living accommodations on campus.

Enclosed is my check covering:
